

**The American Institute of Architects
Continuing Education Systems
AIA/CES Registered Provider Program Summary Handout**

PROVIDER: Louis Poulsen Lighting, Inc.

PROGRAM #: LPLPP

LENGTH: 1 hour

CREDITS: 1 LU hour

PROGRAM: The Language of Light

HSW: No

Learning Objectives: After completion of this course, participants will understand and be able to discuss:

- The definition of light
- Basic principles of light transfer and measurement
- How the human eye processes light
- Basic lighting terminology
- How specific lighting distributions are used within various applications

How This Program is Taught: The CES facilitator utilizes a PowerPoint presentation to provide an in-depth overview for how to specify various types of lighting for various areas. The presentation will be interactive and will encourage feedback and questions at the end. A questionnaire pertaining to specific topics within the presentation will be distributed to help reinforce the learning objectives. The program will conclude with a program evaluation.

Target Audience: Architects, specifiers, interior designers, and other design professionals. The ideal size of the group can be between 10 or more people. This program is basic and can be used as a refresher course for people with lighting knowledge, or those without experience.

Facilitator Qualifications: Best Practices in Lighting Selection CES facilitators have been trained on CES guidelines and presentations skills. Each presenter has a MIES designation.

Costs: There is no cost to bring this program into your firm or chapter meeting.
